

## MEDICAL TREATMENTS

### ALPHA LAZER, IPL

See attached price sheet | **Packaged Price**

Alpha is an award-winning combination of two of the most in-demand technologies in one device: Diode and IPL, PLUS blue light therapy for Acne. Treat all skin types with this platform for LHR, pigmented lesions, melasma, vascular lesions, veins, and acne.

*See attached price sheet.*

### FREEZPEN

What is Cryotherapy?

Cryotherapy is the gold standard for removal of skin lesions in dermatology and aesthetic practices. It is controlled destruction of unwanted tissue through the application of extreme cold.

Lesions are expected to fall off 2-4 weeks after the treatment. Some lesions are more persistent and may take longer to disappear.

The treatment is comfortable and does not hurt – fast, safe and no scarring. There is no need for local anesthesia. FreezPen treatments involve zero downtime.

The FreezPen product is from Belgium and is licensed by Health Canada. Precision Cryotherapy. The erase of dark spots, skin tags, moles and other lesions in seconds.

### FREEZPEN PRICING

LESION SIZE	TREATMENT COST
2-3 mm	\$55
4-6 mm	\$75
7-10 mm	\$90
Add ons	\$50-60 (based on size)

*Prices are exclusive of taxes and gratuities. Updated price list for 2023.*

## OXYGENEO EXFOLIATION FACIAL

### OxyGeneo®

What makes OxyGeneo® the new super-facial? Get the exfoliation benefits of microdermabrasion plus deep facial rejuvenation with the infusion of essential revitalizing nutrients and healing skin oxygenation from within. OxyGeneo® treatments are suitable for all skin types – any ethnicity and pigmentation, sensitive skin, and even for those who keloid (scar) and couldn't otherwise have abrasion treatments. See younger-looking skin after your first treatment!

### What Is OxyGeneo?

OxyGeneo® is an innovative technology for skin exfoliation (removal of dead skin cells from the skin surface), improving skin oxygen levels and infusion of valuable products to enrich the skin. The simultaneous skin exfoliation along with skin oxygenation optimizes the absorption of the valuable components in the nutrient-rich gels into the skin.

### Exfoliate. Infuse. Oxygenate.

Breakthrough OxyGeneo® Technology provides superior anti-aging results by treating the skin at a deeper level. Exfoliate, Infuse, and Oxygenate your way to youthful skin. Find out why professionals are calling the OxyGeneo® Facial “better than microdermabrasion”.

### Benefits Of The OxyGeneo Facial Treatment

- Skin Plumping & Hydrating
- Restored Skin Volume
- Renewed Youthful Glow
- Increase collagen production
- Reduced hyper-pigmentation
- Reduce wrinkles
- Safe for all skin types

### OXYGENEO™ PRICING

OXYGENEO™ TREATMENT	TREATMENT COST
Hydrate/Balance/Illuminate/Revive/Detox	\$200
GLAM	\$250
With Tripollar Skin Tightening	\$100
With Ultrasound Infusion	\$50

## VALUE-ADDED HIGHLIGHTS:

The Oxygeneo super facial is now also available with two additional treatments to bring results to a new level:

### ULTRASOUND ENHANCED INFUSION

Add On | \$50

Ultrasound enhanced infusion significantly improves the absorption of active ingredients into the skin to increase moisture, tighten pores, reduce puffiness and boost active ingredients.

Ultrasound combined with Oxygeneo treatments significantly improves the absorption of active ingredients into the skin:

- **Increase moisture**
- **Tighten pores**
- **Reduce puffiness**
- **Boost active ingredients**

### TRIPOLLAR SKIN TIGHTENING

Add On | \$100

### TRIPOLLAR RADIO FREQUENCY (RF) TECHNOLOGY IS AN INNOVATIVE, PROPRIETARY 3RD GENERATION TECHNOLOGY

**Tripollar Skin Tightening** 3<sup>rd</sup> Generation Tripolar Skin Tightening, delivers focused energy to the skin surface and tissue layers, stimulating natural collagen regeneration for

Incredible results:

- **Skin tightening**
- **Wrinkle Reduction**
- **Face Sculpting**

TriPollar® RF is clinically and histopathologically proven to simultaneously, homogeneously and volumetrically heat both superficial (dermal) and deep (hypodermal) layers while treating the body and face. The focused TriPollar RF – due to its high density – enables the use of low energy, thereby providing immediate and long-lasting results. The deep heating encourages the production of collagen and elastin, resulting in tighter and smoother skin. In addition, for the body, heating the fat cells accelerates metabolism and causes them to shrink, resulting in body shaping and minimized cellular appearance. Simple to use and remarkably efficient, TriPollar treatments deliver body shaping, skin tightening, reduction of cellulite and treatment of wrinkles from the first treatment, and long-lasting results after a course of treatments, without surgery or downtime.
